

ALMA MATER EXCHANGE

Our initiatives

The Alma Mater Exchange consists of a number of initiatives. These include:

1. Act as a resource for Swedes and other persons based in Sweden with an interest in higher education in the US, connecting them to different alumnae associations, the resource center at the Swedish Fulbright Commission and other resources such as initiatives by the US Embassy and Education USA.
2. Be a point of contact and co-ordinate with different US college and university alumnae associations based in Sweden.
3. Support international outreach offices and international exchange studies at Swedish universities.
4. Collaborate with the Fulbright Commission of Sweden and the United States Embassy to:
 - welcome visiting Fulbrighters from US academic institutions to participate in our community;
 - welcome back Fulbrighters returning from US academic institutions and encourage them to participate in ACS;
 - support the Fulbright Commission and the United States Embassy in making information about American colleges and universities available at college fairs such as the SACO Student Fair and others;
 - support the Fulbright Commission and the US Embassy in running cross-cultural workshops concerning the experiences of Fulbrighters in America and in Sweden.

Do you want to know more?

Are you interested in representing your college or university within the Club, or do you know who the official representative of your alma mater is?

We are looking for members who are interested in speaking about their experiences of college/university in the US with Swedish-based persons interested in attending US universities, possibly your alma mater.

If you would like to participate or have any questions, don't hesitate to contact us at

ame@amclubsweden.org.
